Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Sesha is developing a weather monitoring system for a region with multiple weather stations. Each weather station collects temperature data hourly and stores it in a 2D array.

Write a program that can add the temperature data from two different weather stations to create a combined temperature record for the region.

Input Format

The first line of input consists of two space-separated integers N and M, representing the number of rows and columns of the matrices, respectively.

The next N lines consist of M space-separated integers, representing the values of the first matrix.

The following N lines consist of M space-separated integers, representing the values of the second matrix.

Output Format

The output prints the addition of the two matrices in N rows and M columns, representing the combined temperature record.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3 3

1 2 3

4 5 6

7 8 9

1 1 1

2 2 2

3 3 3

Output: 2 3 4

6 7 8

10 11 12

Answer

```
import java.util.Scanner;
class main
{
    public static void main(String[] args)
    {
        Scanner sc = new Scanner(System.in);
        int n = sc.nextInt();
        int m = sc.nextInt();
        int[][] arr1 = new int[n][m];
        int[][] arr2 = new int[n][m];
        int[][] add = new int[n][m];

        for(int i = 0; i < n; i++)
        {
            for(int j = 0;j < m;j++)
            {
                arr1[i][j] = sc.nextInt();
            }
        }
    }
}
```

```
        }
    }

    for(int i = 0; i < n; i++)
    {
        for(int j = 0;j < m;j++)
        {
            arr2[i][j] = sc.nextInt();
        }
    }

    for(int i = 0; i < n; i++)
    {
        for(int j = 0;j < m;j++)
        {
            add[i][j] = arr1[i][j] + arr2[i][j];
        }
    }

    for(int i = 0; i < n; i++)
    {
        for(int j = 0;j < m;j++)
        {
            System.out.print(add[i][j] + " ");
        }
        System.out.println();
    }
}
}
```

Status : Correct

Marks : 10/10
